A full stack web developer by trade, a problem-solver by nature. Writing code allows me solve problems and that's why I'm passionate about it. Looking for a full time opportunity where I can work on impactful projects, while improving my development workflow and skills.

Work experience

Software Engineer - Arbisoft Jul 2022 - Aug 2022
Created a shopify webstore for an alcohol-free wine business, with localization in two langugage. Also created a React Native app for a Museum to help visitors maximize engagement and information gain from their tour.

Full Stack Web Developer - Translatez Mar 2022 - Jul 2022
Worked on developing the design system, components, and pages for a NextJS application for exam preparation in the U.K.

Full Stack Developer - Semicolon Berlin May 2021 - Sep 2021
Created a React Native app for a Museum to help visitors maximize engagement and information gain from their tour. Created a shopify webstore for an alcohol-free wine business, with localization in two langugage.

Intern - Google Summer of Code Mar 2020 - Sep 2020
Created a social media sharing system in NextJS for the measurements available on OONI Explorer. Also improved the metatags, hence improving SEO.

Web Developer - Freelancing Jan 2018 - Whenever I'm free
Worked on projects ranging from teaching React, to making website clones; all of them helped me improve my skills of delivering a product fast to the client.
